LOGO CONCRETE  
**MARKERS**

**LEAVE YOUR BUSINESS CARD... PERMANENTLY.**

Your brand is the most important image of your business and it's usually the first impression that customers and potential clients see.

Much more professional looking than stamping your name in concrete, our concrete markers can increase business, projects, sales and referrals for years to come. These markers can be engraved with your company name, logo, phone number and website for branding that lasts a lifetime.

Berntsen concrete markers can be anchored in walkways, entryways, building walls, etc. and come in two sizes with a unique 3" split-style stem for ease of installation.

Designs are available either recessed or raised into the bronze marker and ship approximately 30 days after artwork has been approved.

# ENGRAVED BRONZE PLAQUES & NAME PLATES

## IMPROVING & REPLACING THE AGE-OLD ART OF CASTING

The engraving process for custom, one-of-a-kind bronze plaques can digitally replicate any quality logo, photo or text and captures the most intricate details that the casting process leaves behind.

This technique, along with the finest finishes in the industry, sets a new standard for metal plaques and signage. Available in Oxide, Half-Tone or Full-Color finish, plaques and nameplates ship approximately 30 days after artwork has been approved.

# MINI SURVEYING PRISMS

## FOR MONITORING

**NEW!**

## ACCURACY STARTS AT THE REFERENCE POINT, NOT THE SURVEY INSTRUMENT

For surveying projects that require permanent and precise measurement options over an extended period of time, we offer several varieties of mini prisms. Our newest prisms, the RSMP190 & RSMP290 can be rotated 360° degrees with optional magnets so they can be attached to steel structures without epoxy or bolts. The RSMP180 & RSMP280 can be rotated 180 degrees and multiple prisms can be combined using an integrated connector system for making measurements in different directions while the prisms remain in place.

**SURVEY STAKE-OUT AID – FITS IN ANY SHIRT POCKET**

Stake-Out Aid RS96 was developed specifically for setting out work on the batter boards and on the floor slab. Exact measuring of the survey point on the floor slab often causes major problems particularly in the "final phase" with the last 5-10 cm. The RS96 is placed on the ground and the assistant can use the measuring scales to reproduce and transfer the surveyor's directions quickly and precisely.

# ATLAS COPCO

## GAS-POWERED BREAKERS AND DRILLS

VISIT [WWW.BERNTSEN.COM](http://WWW.BERNTSEN.COM)  
FOR OUR FULL LINE OF DRILL BITS,  
ATTACHMENTS & ACCESSORIES

### COBRA COMBI HAMMER/DRILL

The Atlas Copco Cobra Combi gas powered drill & breaker is designed for rock drilling, breaking concrete, cutting asphalt, tamping ballast, digging and many other field tasks.

#### FREEDOM OF MOVEMENT, ZERO SET-UP TIME

With no compressors, hoses or cables to setup, this gas-powered breaker is ideal for smaller jobs. Not only is the Cobra Combi a self-contained breaker, it's a powerful drill as well. It can sink holes to the depth of 6.5 feet, and drill up to 12 inches per minute in solid granite.

Item #	Description	Each
<b>COBRA COMBI</b>	Gas Powered Breaker/Drill	<b>4795.00</b>

*Includes a steel drill & flat chisel, chuck wear template, spare starter rope, sparkplug, plug wrench, fuel/oil measuring beaker & case*

### COBRA PRO BREAKER

The Atlas Copco Cobra Pro (formerly the MK1) offers the same power-to-weight ratio as many pneumatic or hydraulic breakers with almost twice the impact energy (44 foot lbs. of impact) of other gas-powered breakers.

#### HIGH PRODUCTIVITY & LOW VIBRATION LEVELS

Despite the high impact energy, vibration levels are reduced to a unique, patented vibration dampening system. High percussive energy, in combination with high percussive frequency means you get the job done faster. Add them up, and you'll see why the Cobra Pro is the most productive gas-powered breaker on the market.

Item #	Description	Each
<b>8318 0770 41</b>	Cobra Pro Breaker w/ 1 1/8" x 6" chuck	<b>4095.00</b>
<b>8318 0700 37</b>	Cobra Pro Breaker w/ 1 1/4" x 6" chuck	<b>4095.00</b>

*Includes chuck & shank templates, replacement spark plug & starter rope*
