Mapping Your Infrastructure
Simple. Powerful. Connected.

InfraMarker®
By **Berntsen**

Tired of hard to use mapping software? Complicated pricing schemes? Technical jargon? InfraMarker is the easy-to-use infrastructure asset marking and mapping solution with the power of more expensive geo-mapping offerings. Use it as a stand-alone field data collection tool or use InfraMarker as your full solution. InfraMarker connects with a full suite of technology enabled markers to provide a true ground to cloud connected solution.

STEP 1: *Pick your plan (Pay only for the asset records you need)*

STEP 2: *Choose your options*

InfraMarker works out of the box but add-ons can make your package even more powerful.

Connected Field Markers *(Because coordinates alone aren't enough when you're in the field)*	
• RFID Enabled Subsurface Markers	• RFID Enabled Pavement Markers
• RFID Enabled Above Ground Markers	• Subsurface Magnetic Markers
• RFID Readers/Writers (UHF)	• Magnetic Locators
• Berntsen Boundary and Infrastructure Markers (www.berntsen.com)	

Training and Support *(If you want more assistance)*	
• Onsite Field Training	• Onsite Administrator Training
• Assisted Template Building	• Additional Asset Capacity

Contact us for benefit and pricing details, including large-scale Enterprise Packages.

STEP 3: *Connect with our expert team to get Started!*
